AARON BARTON, } Auditors for the
H. S. MUCHMORE, } Town of Piermont.

REPORT OF THE SCHOOL BOARD.

TO THE VOTERS OF THE TOWN OF PIERMONT, N. H.:—

We, the members of the School Board, have attended to the duties of our office, and present the following report:

We have maintained schools in the various divisions, 30 separate terms in all, aggregating 269 weeks of school. We planned to furnish each scholar except in two small schools, 24 weeks of school, and in those, 20 weeks. The Back Road school was shortened one week by sickness in the teacher's family. The Rodimon school was lengthened to make up school due them last year.

A school was maintained in the Stanley district in the spring, but, with the consent of parents, the children were accommodated at Brook Road and Clay Hollow, the rest of the year, and thus, after paying for transportation of scholars, \$37.50 was saved.

We have paid in all for carrying pupils \$120.50, not because the law says we must pay in any case, but because it allows the use of one-fourth of all the money for that purpose. We have understood simply that we had the right to use money, not more than one-fourth of all, for the transportation of those more than one and a half miles distant, and that we must maintain schools at such places as will give all the children of the district "as nearly equal advantages as may be practicable." We have tried to do this, acting, not to the best of the ability of someone else.

but to the best of ours, as our oaths required. It is a delicate question to settle how much money to use, and how, for this end. We have apportioned the payments to the work done and the differing conditions the best we could.

As in previous years, we have employed Piermont teachers, so far as we could secure acceptable ones.

It is asked, "Why did not the Board school all the children from Mr. Chandler's to Mr. Rogers', on the River road, in one school in the school house?" The short answer is, that a school for all would have cost for 24 weeks, \$110. It has cost us for the little school there, \$45, and for carrying all who wished to go to the village, \$64, or \$109 in all, a saving in cost. Besides, the school would have been more than a mile and a half from some of the children.

Our schools have cost more than last year because we have had more and longer schools than heretofore. One new school was necessary over the heights, where no scholars have been found for years past. We had to provide for ten Piermont children in that region, and hired Mrs. Wm. Clifford to teach, and to furnish school room. The Union schoolhouse in that vicinity has been sold by Orford, without the consent of Piermont, and should be paid for by that town.

Of the \$1,878.01 school money available, we have used \$1,455.72, leaving the balance, \$422.29, for next year. Two school houses, Village and Number 1, have been painted the past year, and three, River, Rodimon and Stanley need to be repaired this year, if they are to be kept fit for use.

Respectfully submitted,

ERNEST S. UNDERHILL,	} School Board.
W. A. C. CONVERSE,	
CHAS. H. RODIMON,	

SUPERINTENDENT'S REPORT.

Having had the oversight of your schools during the last year, I beg leave to present the following report:

There have been kept in town, as stated in the accompanying report, 30 separate terms of school, aggregating 269 weeks, as against 213 weeks last year.

There have been enrolled, of Piermont pupils, in these schools 137, three more than last year. Of these pupils all have studied Reading and Spelling; 120, Arithmetic; 132,

Writing; 21, Physiology; 22, History; 84, Geography; 25, Grammar, and 8 Algebra.

Of the seventeen different teachers employed, fifteen were residents of the town. Seven of them taught their first term in town, five being beginners, who promise to take good rank among our experienced teachers. Seven teachers taught the same school two or more terms.

We counted it fortunate that we could secure the services of Mrs. Reneau and Mrs. Clifford, experienced teachers. Mrs. Clifford took the pupils into her own house, and Mrs. Reneau taught the Clay Hollow school, with marked success. I do not wonder that pupils and parents were alike pleased.

We thought best to continue the graded school in the village, as we did the whole year. The primary grade under the guidance of Miss Olive A. Dodge has been pleasant and profitable. Miss Martin's clear ideas and methods secured like qualities in her pupils.

Miss Andross, who has taught the Brook road school during the year, has secured faithful work from her pupils. No geography classes in town have done better, and thirteen of her eighteen pupils studied geography. In Miss Hill's school also (whose pupils were mostly young), there was the same careful training of the memory.

I am pleased that so many of the parents in town have shown their interest in the work of the schools by visiting them, and I hope that the time may soon come when every parent in Piermont may be recorded as a visitor of the children in school at least once every term. When this is the case the school machinery may be expected to move smoothly and with satisfactory results.

I have been pleased to see the older children in school, in the village and in Clay Hollow, and a few in the other schools, and I am glad that some are studying in out of town schools, because I am sure that what is so expended will prove a good investment. Let us do all that we can to train our children for the duties and responsibilities which will soon devolve upon them.

Respectfully submitted,

W. A. C. CONVERSE, Superintendent.

REPORT OF SCHOOL MONEY.

The Treasurer of the School Board charges himself as follows:

To cash on hand	\$129 19
“ money drawn from town treasurer	1,484 70
